The processes for internal control, risk assessment, control activities, information and communication, and monitoring regarding the financial reporting are designed to ensure reliable overall financial reporting and external financial statements in accordance with International Financial Reporting Standards, applicable laws and regulations and other requirements for listed companies on Nasdaq OMX Stockholm. This process involves the Board, Executive Management and personnel.

The responsibility for maintaining an effective control environment and internal control over financial reporting is delegated to the Chief Executive Officer. Other Executive Managers at various levels have respective responsibilities. The Executive Management regularly reports to the Board according to established routines and in addition to the Audit Committee's reports. Defined responsibilities, instructions, guidelines, manuals and policies together with laws and regulations form the control environment. All employees are accountable for compliance with these guidelines.

Risk assessment and control activities The Company has prepared a model for assessing risks in all segments in which a number of items are identified and analyzed. These risks are reviewed regularly by the Board of Directors and by the Audit Committee, and include both the risk of losing assets as well as irregularities and fraud. The process involves all Group companies, segments and business units. Overall coordination is done centrally by the Group's Risk Management staff function. In addition to that a Risk Committee has been established comprising Group top management representatives. The purpose is to provide a group-wide overview and a basis for decision-making regarding risk management. Risk management is performed through an appropriate balance between preventive and risk-reducing measures. The most important segments are compliance with the broadcasting regulations, control and follow-up on penetration, share of viewing and listeners, broadcasting continuity and the development of advertising markets. The respective managers are in charge of risk management in the Group's companies, segments and business units. The responsibility encompasses the day-to-day work focused on operational and other relevant risks, and on leading risk management activities in their own areas of responsibility. The managers are supported by central Group resources.

Information and communication Guidelines and manuals used in the Company's financial reporting are communicated to the employees concerned. There are formal as well as informal information channels to the Executive Management and to the Board of Directors for information from the employees identified as significant. Guidelines for external communication ensure that the Company applies the highest standards for providing accurate information to the financial market.

Follow-up The Board of Directors regularly evaluates the information provided by Executive Management and the Audit Committee. The Board receives regular updates of the Group's development between the meetings. The Group's financial position, its strategies and investments are discussed at every Board meeting. The Audit Committee reviews the quarterly reports prior to publication. The Audit Committee is also responsible for following up on internal control activities. This work includes ensuring that measures are taken to deal with any inaccuracy and to follow up suggestions for actions emerging from the internal and external audits.

The Company has an independent internal audit function responsible for the evaluation of risk management and internal control activities. This work includes scrutinising the application of established routines and guidelines. The internal audit function plans its work in cooperation with the Audit Committee and reports the result of its reviews to the Audit Committee.
