The Board also reviews, primarily through the Group’s Audit Committee, the most important accounting principles applied by the Group in financial reporting, as well as major changes in these principles. External auditors

The Company’s auditors are elected by the Annual General Meeting for a period of four years. KPMG was elected as MTG’s auditors in 2014 and has been external auditors since 1997. Joakim Thilstedt, authorised public accountant, is responsible for the audit of the Company on behalf of KPMG since December 2013. Audit assignments have involved the examination of the annual report and financial accounting, the administration by the Board and the CEO, other tasks related to the duties of a company auditor and consultation or other services which may result from observations noted during such examination or the implementation of such other tasks. All other tasks are defined as other assignments.

The auditors report their findings to the shareholders by means of the auditors’ report, which is presented to the Annual General Meeting. In addition, the auditors report detailed findings at each of the ordinary meetings of the Audit Committee and to the full Board once a year.

KPMG provided certain additional services for the years 2014 and 2013. These services comprised tax compliance work, advice on accounting issues, and advice on processes and internal controls and other assignments of a similar kind and closely related to the auditing process. For more detailed information concerning the auditors’ fees, see Note 29 of the notes to the consolidated financial statements.

Pre-approval policies and procedures for non-audit related services

In order to ensure the auditor’s independence, the Audit Committee has established pre-approval policies and procedures for non-audit related services to be performed by the external auditor. The policy was approved in December 2014 by the Audit Committee of MTG.

Internal control report

The processes for internal control, risk assessment, control activities, information and communication, and monitoring regarding the financial reporting are designed to ensure reliable overall financial reporting and external financial statements in accordance with International Financial Reporting Standards, applicable laws and regulations and other requirements for listed companies on Nasdaq Stockholm. This process involves the Board, Executive Management and personnel.

Control environment
The Board has specified a set of instructions and working plans regarding the roles and responsibilities of the Chief Executive Officer and the Board committees. The Board also has a number of established basic guidelines, which are important for its work on internal control activities. This includes monitoring performance against plans and prior years. The Audit Committee assists the Board in overseeing various issues such as monitoring internal audit and establishing accounting policies applied by the Group.

The responsibility for maintaining an effective control environment and internal control over financial reporting is delegated to the Chief Executive Officer. Other Executive Managers at various levels have respective responsibilities. The Executive Management regularly reports to the Board according to established routines and in addition to the Audit Committee’s reports. Defined responsibilities, instructions, guidelines, manuals and policies together with laws and regulations form the control environment. All employees are accountable for compliance with these guidelines.

Risk assessment and control activities
The Company has prepared a model for assessing risks in all segments in which a number of items are identified and analyzed. These risks are reviewed regularly by the Board of Directors and by the Audit Committee, and include both the risk of losing assets as well as irregularities and fraud. The process involves all Group companies, segments and business units. Overall coordination is done centrally by the Group’s Risk Management staff function. In addition to that a Risk Committee has been established comprising Group top management representatives. The purpose is to provide a group-wide overview and a basis for decision-making regarding risk management. Risk management is performed through an appropriate balance between preventive and risk-reducing measures. The most important segments are compliance with the broadcasting regulations, control and follow-up on penetration, share of viewing and listeners, broadcasting continuity and the development of advertising markets. The respective managers are in charge of risk management in the Group’s companies, segments and business units. The responsibility encompasses the day-to-day work focused on operational and other relevant risks, and on leading risk management activities in their own areas of responsibility. The managers are supported by central Group functions.

Information and communication
Guidelines and manuals used in the Company’s financial reporting are updated and communicated to the employees concerned on an ongoing basis. There are formal as well as informal information channels to the Executive Management and to the Board of Directors for information from the employees identified as significant. Guidelines for external communication ensure that the Company applies the highest standards for providing accurate information to the financial market.
Follow-up

The Board of Directors regularly evaluates the information provided by Executive Management and the Audit Committee. The Board receives regular updates of the Group’s development between the meetings. The Group’s financial position, its strategies and investments are discussed at every Board meeting. The Audit Committee reviews the quarterly reports prior to publication. The Audit Committee is also responsible for following up on internal control activities. This work includes ensuring that measures are taken to deal with any inaccuracy and to follow up suggestions for actions emerging from the internal and external audits.

The Company has an independent internal audit function responsible for the evaluation of risk management and internal control activities. This work includes scrutinising the application of established routines and guidelines. The internal audit function plans its work in cooperation with the Audit Committee and reports the result of its reviews to the Audit Committee. The external auditors report to the Audit Committee at each ordinary meeting of the Committee.
